- ▶ 4. Tools and Technologies
- ▶ 5.Portfolio design and Layout
- ▶ 6.Features and Functionality
- ▶ 7.Results and Screenshots
- ▶ 8.Conclusion
- ▶ 9.Github Link

Problem statement

- ▶ In The current digital era, students and professionals often struggle to effectively showcase their skills, achievements, and projects using traditional resumes.
- ▶ Paper-based resumes are limited in detail, lack interactivity, and do not provide a dynamic way to highlight creativity There is a need for a Digital Portfolio that can serve as an interactive platform to present personal information, academic achievements, skills, certifications, and projects in a professional and easily accessible format.

Project Overview

- ▶ The Digital Portfolio project is designed to provide students and professionals with an interactive platform to showcase their personal details, academic qualifications, technical skills, achievements, projects, and certifications.
- ▶ Unlike traditional resumes, a digital portfolio is dynamic, visually appealing. And can be accessed online at any time This project aims to help individuals build a strong professional identity and improve their chances of career opportunities by presenting their talents in a structured and modern way.
- ▶ It can be developed using tools like Google Sites, GitHub Pages, Canva, or WordPress, making it customizable, user-friendly, and easily shareable.

You Are Tha End Users?

- ▶ StudentsFor showcasing academic achievements, projects, and skills
- ▶ Job SeekersTo share a professional profile with recruiters
- ▶ Teachers /FacultiesTo highlight research work & publications
- ▶ Freelancers To display portfollos & attract clients Reply

Conclusion

- ▶ Conclusion: “The digital portfolio effectively showcases skills, projects, and achievements in a professional and interactive manner.
- ▶ It serves as a personal branding tool, helping students and job seekers stand out to recruiters and clients, while providing an organized and visually appealing presentation of their work
- ▶ The Digital Portfolio project provides an organized platform to showcase a clean, responsive layout, and interactive features to create a presentation. This portfolio not only helps students and aspirants present their personal skills, projects, and achievements effectively.
- ▶ It combines a clean design to highlight their work but also acts as a personal branding tool, making it easier for recruiters and clients to evaluate their abilities.
